Turin, April 21.

THe 19th Inſtant the two new Regiments of Dragoons, the one under the Command of the Count *de Verüe*, and the other, of the Count *de Berné*, each 300 Men, were drawn out in the Duke of *Savoy*'s Preſence, who was very well pleaſed with them; Yeſterday they both Marched, the firſt to *Aſt*, and the other to *Verceil*. All the Military Officers have received Orders to repair forthwith to their reſpective Commands.

Vienna, April 25. All things are preparing for the general Rendezvous of the Imperial Army near *Presbourg*, and the Duke of *Lorrain*, who is made General of all the Emperor's Forces, does cauſe a very ſtrict Muſter to be taken of the Regiments that are to compoſe the ſaid Army. The Train of Artillery Marched from hence two days agone for *Hungary*; it conſiſted in 63 Pieces of Cannon, great and ſmall, ſeven Mortar Pieces, and a very great number of Wagons, laden with Ammunition, &c. The Elector of *Bavaria* is expected here on Thurſday next, and his Imperial Majeſty has ſent ſome of the Officers of his Houſe to receive him at a place called *Melcke*. Their Imperial Majeſties part from hence to morrow for *Luxemburg*, where they will ſtay five or ſix days, and from thence go to *Presbourg*. The Elector of *Saxony* is expected at the general Rendezvous, which will be held the third or fourth of the next Month. They write from *Hungary*, That the main Body of the Ottoman Army marches very ſlowly, but that the Baſſa of *Buda*, and the other Baſſa's, are drawing together the Troops which are in *Hungary*, and have called upon Count *Teckeley* to make haſte to joyn them, and that in the mean time they have cauſed all the Forage to be carried into the fortified places, that the Imperialiſts, in caſe they ſhould be the firſt in the Field, may not have the Benefit thereof. The Emperor has conferred the Office of Great Maſter of his Houſe upon Count *Albert* of *Zinzendorf*, and that of Great Mareſchal of the Court, upon Count *Francis Walleſtein*. The new Fortifications that are making here will be very ſpeedily finiſhed.

Vienna, April 29. Their Imperial Majeſties parted from hence on Monday laſt for *Luxemburg*, where the Elector of *Bavaria* is expected this Evening. On Monday likewiſe arrived here the Secretary of the Count *de Saponara*, and with him Count *Teckeley*'s Secretary; we know not yet the buſineſs they are ſent hither about, but are willing to believe they bring ſome new Propoſals in order to an Accommodation. This Day parted from hence the Duke of *Lorrain* for *Hungary*. The General Rendezvous is fixed for the 5th of the next Month. From *Hungary* we have Advice, That Count *Teskeley* has ſent a Body of his Troops to Attack the Caſtle of *Dunawitz*; That they had already made an Aſſault upon it, and that it was feared the place would fall into their hands, having no expectation of Relief.

Berlin, April 18. The 16th Inſtant the Sieur *Bierman*, Envoy Extraordinary from the King of *Denmark*, had his firſt Audience of the Elector of *Brandenburg* at *Poſtdam*; he has had ſeveral Conferences with his Electoral Highneſs's Miniſters, but we cannot ſay with what Succeſs. Some days ſince arrived here an Expreſs, being diſpatched by the Baron *de Crakaw*, his Electoral Highneſs's Ambaſſador at *Warſaw*, with the news of the Concluſion of the League between the Emperor and that Crown, which it's believed will very much influence the Councils at this Court.

Ratisbonne, April 26. Things continue here in the ſame ſtate, the Colledges of Electors and Princes remaining firm in their ſeveral Concluſions, which obſtructs as well the intended Treaty with the Crown of *France* as the Point of the publick Security, though the latter is very much preſſed by the Imperial Commiſſioner. The Elector of *Bavaria* was to begin his Journey as yeſterday for *Vienna*, from whence we have an account, That the Duke of *Lorrain* has acquainted the Emperor, That having made enquiry concerning the Troops that are deſigned for the compoſing the main Army his Imperial Majeſty will have in *Hungary* this Summer, he finds they will not amount to more than 30000 Men; and that his Highneſs had commanded the Commiſſaries of the Muſters to take a ſtrict Muſter of all the Regiments before they appear at the general Rendezvous, when his Highneſs will take an exact view of them himſelf.

Bruſſels, May 7. The Marquiſs *de Grana*, our Governor, went from hence yeſterday for *Flanders*, to viſit the Fortifications of *Newport* and *Oſtend*; before his departure he appointed the Duke *de Haure* the Kings Commiſſioner for the renewing the Magiſtrates in the ſeveral Towns of *Flanders*. His Excellency's Marriage with Madamoiſelle *d'Aremberg*, the Duke *d'Arſchot*'s Siſter, is Concluded, and will be Conſummated immediately after his Excellency's return from *Flanders*. They write from *Namur*, That the French have provided at *Sedan* Thirty large Boats, and laden them with all ſorts of Ammunition. Things are at preſent managed at *Liege* with great moderation, and there is a fair Proſpect of an accommodation of the differences between that City and their Prince, the chief Obſtructer of it, the Burgermaſter *Loos*, being Baniſhed from *Liege*. They write from *Luxemburg*, That the French Cavalry in thoſe parts are marched to the ſeveral places of Rendezvous upon the *Saar* and the *Soane*, and that there is no appearance of any action on that ſide. All is likewiſe very quiet in the French Conqueſts, which may change his Excellency's Reſolution of Encamping his Troops in *Flanders*.

Bruſſels, May 11. His Excellency returned hither
